

## Stage 5 Agricultural Technology

**Name:** .....

## Worm farm diary

Keeping a diary of all management activities performed is a key to successful operation of any enterprise. During this topic you will be setting up and managing a worm farm. Each time you perform a management activity with your worms record it in this diary. Include:

- the date
- a brief description of the management activity, e.g. feeding, watering etc
- the results of any tests, e.g. moisture content, pH, temperature
- anything else that is relevant to the management of your worms, e.g. big frost today.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

If you need more pages use your own paper.
