

Stage 5 Agricultural Technology: Plant nursery production

Sowing seeds in seed trays

Materials:

Seed trays or punnets

Seed suitable for the season (flowers or vegetables)

Seedling mix

Method:

1. Moisten some potting mix, and fill the seed tray or punnet.
2. Firm the mix down.
3. Place seeds at a suitable distance apart on the surface of the mix.
4. Scatter a thin layer of seedling mix over the surface to cover the seeds.
