

## Stage 5 Textiles Technology: Sea and sand

### Fabric study: Non woven fabrics I

Definition: \_\_\_\_\_

Sample	Fabric name	Suitable end uses	Functional properties	Aesthetic aspects
Felt	Felt			
Chemical bond	Interfacing			
Thermal bond	Filter fabric			
Chemical bond	Disposable cloths			
Spun bond	Surgical gown			
Geotextile illustration	Road stabiliser			

## Fabric study: Non woven fabrics II

Non woven fabrics may be used in a wide variety of ways in the production of textile arts.

Sample	Fabric name	Purpose	Functional properties	Aesthetic aspects
Chemical bond	Fusible interfacing			
Chemical bond	Stitch on Interfacing			
Chemical bond	Tear away			
Chemical bond	Vilene 541			

<b>Chemical bond</b>	Wadding			
<b>Chemical bond</b>	Vliesofix
